

Ark-Tex Council of Governments

WEATHERIZATION PROGRAM

The Ark-Tex Council of Governments is sponsoring a Weatherization Program that can make your home more energy efficient and save you money each month on your utility bills. You may qualify for energy saving measures that can help make your home more energy efficient. Qualified measures can include: LED light bulbs, HVAC duct sealing, attic insulation, solar screens, and caulking and weather-stripping.

Qualifications for the Weatherization Program include:

- You must be a Texas New Mexico Power customer.
- Must meet certain income requirements. Your income eligibility will be verified following procedures in the Texas Administrative Code Rules for Energy Assistance Programs.
- Your home must pass an energy audit/inspection to determine if energy efficiency services are warranted for your home.

**To find out if you qualify for the Weatherization Program,
call 1-855-738-4710.**
